

Maja Stina Modigs Coffee Pot

Carl Modig's grandson Gunvor Forsslund Modig (mother of Hans Forsslund) had a tripod coffee pot that she received from a relative when she visited Tidaholm and Daretorp in the early 1980s.

The relative's last name was Elzén, but the first name is Gunne uncertain of. Looking in church books etc., it is likely that it is a daughter Elvira of Gustava (Modig) Elzén. Elvira was born 4/12 1897.

Elvira wanted Gunne to take over the coffee pot. According to Elvira, Maja Stina has received the pan from her son Carl Modig in Härnösand and she should have used the pan to serve coffee to passers-by on the country road in order to earn a penny. It is very likely that she got the coffee pot when she lived at Backstugan Liden where she lived the last 30 years of her life.

Now the pot is a treasure belonging to Hans Forsslund
